John Muir Pandemic Planning

We are heading into our 3rd week after break and we continue to be on distance learning. Teachers, students and parents have hit the ground running with their teaching and learning, and we couldn't be more proud of all the hard work that continues with our remote learning. We realize that this only works with everyone's patience and perseverance, so we want everyone to know that does not go unnoticed!

I wanted to give everyone an update on our COVID planning. We have created protocols and procedures to be in place for when students return. We are in the process of turning that document into a parent friendly "Parent Handbook". When the Parent Handbook is available and ready to be shared we will share it with our school community so that families will be well informed as to what our expectations will be for student and staff safety in terms of the current pandemic. We have determined that our priority will be the safety for all versus the conveniences we might have enjoyed prior to the pandemic. With that said, school may look different when we return, however, I believe all would agree that there is a priority for all people on site to feel safe and secure. In the meantime we continue to remain on distance learning until further notice. If you do have any questions, please do not hesitate to call or email. ecollins@lodiussd.net
