

## **PARENTING PARTNERS**

Parenting Partners concluded our fall session the week of December 16th. The feedback from our most recent round of parent "graduates" was extremely positive. Parenting Partners has proven to be a successful program at our site that not only nurtures the relationship of, but also provides support to the parents in our learning community. Throughout the eight weekly workshops, parenting & leadership skills are combined and modeled for parents to become more engaged contributors to their children's academic success.
